SUMMARY

Dedicated MERN Developer with expertise in designing and developing responsive web applications using both front-end and back-end technologies. Passionate about learning new technologies and contributing to dynamic projects in the tech industry.

SKILLS

Technical:

- **Front-end:** React, Bootstrap, DaisyUI, Tailwind CSS, CSS3, HTML5
- **Back-end:** Node.js, Express.js, MongoDB, Firebase
- **Design & Development Tools:** Figma, Photoshop, VS Code, GitHub

Soft Skills: Well-versed in communication, leadership, problem-solving, critical thinking, adaptability, continuous learning, time management, and organization.

PROJECTS

1. NestTree (Real Estate Website) [Live](#) | [Client Code](#) | [Server Code](#)

Technologies Used: React, Node.js, Express.js, MongoDB, Firebase

Description: NestTree is a real estate platform that allows users to explore, Wishlist, and purchase verified properties while enabling agents to list and manage their properties.

Features: Role-based access for Admin, Agent, and User with secure login and access control. Agents can add, update, and track their listings, while users can Wishlist and buy properties. Users can leave reviews, make offers, and complete payments securely.

2. Recommendoo (Product Query and Recommendation Website) [Live](#) | [Client Code](#) | [Server Code](#)

Technologies Used: React, Node.js, Express.js, MongoDB, Firebase

Description: Recommendoo is a platform where users can submit their product queries and receive recommendations from peers, helping them make informed decisions through crowd-sourced suggestions.

Features: Recommendoo allows users to submit queries and provide recommendations based on their personal experiences. The platform integrates Firebase to enable real-time updates and interactions. The backend is powered by Node.js and MongoDB to efficiently store and manage user-submitted queries and recommendations.

EDUCATION

Bachelor of Science (BSc) in Mathematics (2014 - 2020)

Government Titumir College, Dhaka

COURSES AND CERTIFICATION

- **Web Development Complete Course** at Programming Hero (June 2024 to January 2025)
- **Professional Web Design** from BASIS SEIP project (9th April 2023 to 25th June 2023)
- **Professional Web Design and Development** from UY LAB (30th January 2023 to 24th July 2023)
